Reynaldy Septian

Jl. Cihampelas No. 369
Bandung, 40116
(+62) 857-2121-6242
reynaldysptian@gmail.com

Frontend Developer with hands-on experience building scalable and user-centric web applications using Angular, React, Vue, TypeScript, and Tailwind CSS. Passionate about clean architecture, thoughtful UI/UX, and maintainable code. Experienced in collaborating with cross-functional teams, translating business needs into reliable digital solutions, and improving development workflows through testing and best practices.

WORK EXPERIENCE

Zettabyte, Yogyakarta— *Frontend Developer*

November 2023 - November 2024

- Collaborated with QA to plan and design UI concepts using Figma for upcoming features, ensuring clarity, usability, and consistency with product requirements.
- Worked closely with backend developers to define efficient data flow and ensure smooth integration between frontend and backend systems.
- Created work schedules and broke down large features into smaller tasks to estimate development time more accurately and maintain team productivity.
- Developed user-facing features using Angular, Angular Material, TypeScript, and Tailwind, focusing on clean, reusable, and scalable code.
- Performed bug fixing and UI improvements to enhance stability, reliability, and user experience.
- Built automation testing scripts using Cypress to ensure feature quality and reduce manual testing time.
- Utilized Git for version control, collaborating effectively in a multi-developer environment.

PT Hasnur Riung — *Frontend Developer*

November 2024 - June 2025

- Developed a dedicated HR web application using Angular and Tailwind to streamline employee attendance and leave management.
- Built an end-to-end leave request flow, starting from employee submission to supervisor approval, ensuring a faster and more transparent process.
- Implemented features such as leave submission, approval routing to respective supervisors, and automatic generation of leave permission documents.
- Integrated a flight ticket request module that enables HR to directly manage employee travel arrangements through the system.

CERTIFICATIONS

- **Fullstack Web Developer** Purwadhika Digital Technology School – 2023
- **Frontend Developer** Zettacamp – 2023
- **AI Engineer** Dicoding & IBM – 2025

LANGUAGE

- Bahasa
- English
